

LET'S PICK A SCRAPPER!

With only six weeks or so left till the Republican National convention, the picture of the general nature of the coming campaign is beginning to reveal itself.

It is not going to be what it appeared to be a month, or two months, or six months ago.

Not so long ago, it was generally believed that President Truman would be the candidate, and that he would be forced to conduct a strictly defensive campaign, trying to excuse and justify corruption as the main issue of the election.

Now the President has eliminated himself, and thereby put himself in powerful position to carry the fight, but do it for someone else — a role that is just as effective today as it was when knighthood was in flower, and the gentlemen in armor broke their lances for damsels in distress.

Mr. Truman has made it thoroughly clear that he has no intention of being put on the defensive. He has been making a series of most aggressive attacks on the Republicans — maybe the same old stuff that Charley Michaelson invented back in 1930 and 1932, but used successfully election after election since that period.

He has been busy blaming Congress for everything that has gone wrong, taking personal and party credit for what has gone right, and telling the public that the Republican Party is the greedy representative of vested interests.

He has not been merely rehearsing his whistle-stop campaign, but conducting it, and doing so without any effective reply or other form of hindrance, since the Republicans have been engrossed in the job of trying to decide on a candidate.

Six months ago, when the scandals were coming thick and fast, when the Korean situation was backfiring, when everything else was going wrong for the Democrats, it appeared that the New Deal was on the skids.

Actually, however, the Marshall-Acheson-Truman axis has had strong assets all the time.

For one thing, the war scare is a commodity which the U. S. State Department can turn on or off like a faucet. Mr. Truman can decide whether it would be best for his party to run in a setting of world peace and friendship, or in an atmosphere of great crisis and emergency.

No process know to man, at the present juncture, can go beyond the propaganda of our diplomats and military leaders. If they say the world is full of amity, who can refute them? Or if they say that Stalin is stockpiling atomic bombs to blitz us, who can make any convincing denial?

It has been abundantly demonstrated, time and again, that it is not beyond the power of the State Department to lie a little, or a lot, for what they consider a good cause; and you can bet that they will think the re-election of those friendly to the Department is a good cause!

Just as a tip, if Senator Taft is nominated, look for a war scare, and if it is Eisenhower, look for a peace offensive!

What is true of the emotional content of the campaign is quite as true of the economic background. There has been a lot of rash talk recently, much of it taken seriously by Republicans, to the effect that we are headed for a slump, which might arrive before November. Nothing could be more absurd.

The fact is that the Truman Administration already has on tap the fantastically immense sum of approximately \$25 billions, and more available if necessary, to dump into country's markets wherever and however best calculated to give us a "boom" lasting through the fall election.

This is money, most of it, appropriated in the most general fashion for defense work, and it can be spent just exactly whatever way the Democratic high command figures will do their party the most good.

What this means is that Mr. Truman has full choice whether to run in a stage setting of "good times" or "hard times," and whether one of world peace, successful culmination (he will say) of the New Deal foreign policy; or of desperate national crisis, in which we must not ever dare consider "changing horses."

Moreover, having wiped out most of his own liabilities by the simple act of renouncing any intention of serving another term, President Truman has prepared, and already embarked on, a demagogic campaign of vilification, personalities, smoke-screens and promises.

General Eisenhower has been given a very mild foretaste of the sort of abuse waiting for him if he wins the Republican nomination. How can he reply in kind to his former friends and associates in the Truman Administration, and what convincing answer can he possibly give when they turn upon him?

If General Eisenhower has been too uncertain of his can-

FILMS SHOWN IN CONNECTION WITH CLUB TRAVELOGUE

Miss Edwina Sykes Delights Women With Account of European Tour

ART DAY PROGRAM

Transposition Is Made In Chairmanship of Two Club Committees

By means of slides in color, pictures which she had taken during a trip to Europe in the summer of 1951, Miss Edwina Sykes took Travel Club members on a trip in fancy to Italy, Switzerland, England, France and Scotland yesterday afternoon.

This program being in charge of the art department, of which Mrs. Russell W. DeLong is chairman, Miss Sykes presented a selection of films which lent themselves well to an art program.

The guest speaker drew particular attention to the influence of medieval, Grecian, Moorish, Saracenic, classical and Byzantine art or architecture, particularly in Italy. The journey by Miss Sykes, a member of Bristol high school faculty, was made in company with three other local teachers.

Termed her "dream of a lifetime," Miss Sykes informed of the journey by boat from New York, N. Y., to Gibraltar; thence to such cities in Italy as Naples, Rome, Florence, Venice, in England, the

RIVER CHANNEL TO BE DUG TO 25 FEET

Bids Are To Be Received On July 1st For The Work

WILL TAKE 4 MONTHS

Maintenance of the Delaware river channel at a 25-foot depth, between Philadelphia and United States Steel's Fairless Works is indicated, as bids are to be received on July 1, by the Army Corps of Engineers.

Engineers estimate it will take about four months to complete.

Specified as "channel maintenance," the 25-foot depth was authorized by Congress several years ago. A Congressional move to allow dredging to a depth of 40 feet to accommodate large ore boats currently is pending.

Officials believe that the 25-foot channel will be deep enough for some large ships if they are not too heavily loaded. U. S. Steel is completing an ore boat slip slightly south of Newbold Island.

Army engineers are planning for a channel 300 feet wide, with extra width at the river bends. It is estimated that 1,174,000 cubic yards of silt and other material will have to be removed.

The project includes slightly more than 20 miles, extending from the upper end of Newbold Island to the mouth of Frankford Creek in Philadelphia.

BRISTOL HIGH GIRLS STAGE FASHION SHOW

Prove There Is Plenty of Talent Here; Theme "Through Looking Glass"

MRS. LANG DIRECTS

There's plenty of real talent in Bristol! Under the capable direction of Mrs. A. Lang, sewing instructor at Bristol high school, the girls staged a delightful fashion show, from two to three p. m. yesterday.

The girls selected as their theme "Through the Looking Glass". The stage itself was nicely "set". To the extreme left of the audience was a grand piano on which selections from Gershwin were played softly as a background for the models. "Connie" Green proved herself an accomplished musician.

Next to the piano was a cute desk and chair set, and in the center of the stage was "Alice's" dressing table. To the extreme right of the stage was a bed in which "Alice" slept and dreamed of stunning creation after stunning creation.

"Alice" was capably portrayed by "Judy" Martin. During the entire showing, an intelligent and pleasant commentary was made by Jo Ann Spicer, who was very attractive in a brown cotton corde jumper which she had made herself. With it Jo Ann wore a red and white sheer blouse.

The seventh grade girls displayed attractive aprons made with a wide band at the waist and soft gathers across the front. Each girl chose a different color, and there were red and white and blue and white checked patterns as well as blue and yellow flowered design.

"Dress-up" aprons in soft blue or yellow organdy were also proudly exhibited. Two of the girls made blouses, one chose a blue, the other a green. Each had a contrasting flower placed perkily on it. The eighth grade girls made petticoats in starched cotton. These are especially suitable for wear under sheer skirts, and there were as many colors represented as there were girls presenting them — all were the perfect answer to the sheer dress problems.

Dresses and suits were the pride of the upper class girls. One off-the-shoulder two-piece dress in blue and black plaid was especially charming with a full skirt with a ruffle to complement the smaller ruffle at the neck.

There was one "Sunday-go-to-meeting" skirt of pink pique worn with a white batiste blouse and

HUNTER EMPLOYEES GO OUT ON STRIKE AT EMILIE PLANT

Over 100 Employees Quit Work Over Wage Demand

PICKET LINES SET UP

Building Trades Group Said To Have Joined Walk-Out

EMILIE, May 24.—At two o'clock yesterday afternoon, the employees of the Hunter Manufacturing Company, went on strike. "The walkout was the result of the final last minute meeting in which International Representatives for the

UAW-CIO, George Kane and Joseph Ferraro, attempted to gain a settlement with Charles Hunter, president of the company, to avert a strike," the union spokesman said.

"Mr. Hunter took the same position as the company did previously, therefore the Union called a strike," said the Union spokesman.

Picket lines were immediately set up and Joseph Ferraro, International representative stated that the strike was a complete success as every Hunter maintenance and production worker filed out. "AFL building trades workers employed in erecting buildings on the Hunter premises also participated in the walkout," and Ferraro said, "that they would respect the Union's picket lines." Ferraro said truckers engaged in shipment of the Aluminum windows, also honored the picket lines thus making the strike 100% effective. The Union as a last resort to postponing the walkout offered the company its proposal of accepting a modified Union Shop, and a Wage Reopener anytime after September 1, 1952, to which the company said no.

Mr. Kane, Sub Regional Director for this area, said that if the Union was forced to go on strike, then the price of setting it would be raised. The Union is now demanding a flat 15 cent across the board increase as a basis for settlement. The Union is calling a special meeting on Monday at the Fifth Ward Sporting Club House in Bristol, to give the membership its final report. The Union representatives expressed hope in getting a settlement soon. The Hunter employees had voted for the UAW-CIO on Feb. 8, and have been negotiating since that date trying to get their first contract.

There are said to be approximately 125 employees affected.

SIZE OF THE TRAP

What the wholesale bungling on Kojie Island has done to this country has made a deep impression on Congress. Acrid discussion is taking place in the House, all unfavorable to the military.

Congressmen point out that if the concessions which General Colson agreed to in order to obtain General Dodd's release are adhered to, it will be an admission that the communist charges of brutality in the prison camp are founded on fact. If the commitments are repudiated, as General Clark has suggested, the communists are given an opportunity for pointing out to the world, particularly Asia, that United States promises are not worth the paper on which they are written.

In view of the painful dilemma in which the U. S. now finds itself, it is not surprising that a demand is growing in Congress for a sweeping investigation of events in Korea. While it will not be easy to recover the prestige the country has lost, it may be possible to put a permanent end to the kind of stupid blunders of which the military establishment has been guilty.

General Clark's explanation that the whole affair was "carefully prepared to manufacture" communist propaganda will hardly satisfy the American people. All it does is convince them completely that their representatives did not have sense enough to avoid falling into an enemy trap. If that is any comfort to the country's military leaders they are welcome to it.

NICKEL HEADED FOR RAP

Another jolt may soon be dealt the purchasing power of the lowly nickel, unless the cost pattern in the newspaper publishing industry soon is reversed. Announcement of an increase of \$10 a ton in the price of Canadian newsprint, on top of a similar boost less than a year ago, brings daily newspapers face to face with the necessity of increasing the price per copy to avoid deficits.

The basic price of newsprint f. o. b. New York City (the price is higher elsewhere in the country) will now be \$125 a ton, compared to a low of \$10 in the 1930s. Other costs that enter into production of a newspaper have soared, too—taxes, wages, postage, equipment. The nickel newspaper seems to be making its last stand.

In California, and in several cities elsewhere, many newspapers now cost 7 to 10 cents. But most publishers have been holding the line at five cents, in the hope that the inflationary spiral would be slowed.

More than 75 per cent of newsprint used by U. S. newspapers is manufactured in Canada. Forty years ago 75 per cent was produced in the United States. In explanation of the latest increase in price, Canadian manufacturers say their costs have increased, and point to the fact that for the first time in history the U. S. dollar is at a discount in Canada.

Bristol High Girls Stage Fashion Show

Continued from Page One

topped by a little crownless brim of pink pique which was scalloped around the edge.

One girl proudly wore an orchid pique dress with tight bodice and full skirt. At the neckline was a dainty bunch of violets and with it she wore a violet velvet belt.

A mustard colored skirt made of corduroy, topped by a weskit of the same fabric and worn with a white blouse and red tie also won much acclaim from the audience. It would take an "extra" edition of the Courier to describe in detail all of the clothing shown, and it is difficult to describe them completely because there were so many and all so worthy.

A truly professional toe exhibition was given by "Betty" Brand who looked charming in a red net costume over which she wore a satin blouse of white with multi-colored balloon-like ball dots.

If you are one of the many who are fascinated by a baton twirler, you would have enjoyed Lily Ruth Brenton who looked very chic in a white costume.

All of the garments were made by the girls and Mrs. Lang had some very fine assistants in Josephine Romano, Lorraine Mullins, Connie Gold, Shirley Pettit, "Peggy" Packard and Jo Ann Spicer.

More thrilling than the creations themselves was the spirit of teamwork and cooperation these girls felt, and their resulting pride in the fact that there is plenty of talent in Bristol.

Today's Quiet Moment

By the Rev. Curtis Loux,
Pastor Oakhurst Chapel
Pennel

Isaiah 26:3 — "Thou wilt keep him in perfect peace, whose mind is stayed on Thee: because He trusteth in Thee."

Peace: perfect peace: What words? How the world seeks for peace and yet has not found it. We have wars and win them, but cannot win the peace. Men perform many acts of ritual to bring peace to their minds, only to find that they have not found it. Hence the question: is there any peace to be found? Must man seek forever for peace and not find it?

Yes, peace can be found; what's more, perfect peace can be found, but it must be found in God. "Thou wilt keep him in perfect peace: whose mind is stayed on Thee". The only real peace must be found in the Prince of Peace, the Son of God; for did not the angels sing "Peace on earth good will toward men" when the Child Jesus was born? Yes, in Him there is peace; peace that was made through the sacrifice of Himself making peace between God and man. The reason for unrest and strife is because of a variance between God and man. This variance exists because of sin against God. This variance was removed when the Son of God died for sin, making peace through the Blood of the Cross.

How to find peace; put your trust into Him the prince of Peace. When you as an individual put your trust into Him; you have peace. When nations acknowledge Him they have peace; until we recognize Him we will have no peace. The work of righteousness shall be peace; and the effect of righteousness, quietness and assurance forever.

ceived a gift as the mother with the youngest child. The refreshment committee, headed by Mrs. Robert Hyatt, served ice cream, cake and coffee. Each guest received a carnation.

Members of Mrs. William Bourne's card club met Tuesday evening at her home in Bath Addition. Canasta was played. Mrs. George Graffner, Fergusonville was the prize winner.

"We, at Bristol, are more grateful than we could possibly put into words, to have so well-educated, experienced and capable a man as the skipper of our ship.

"We are proud to dedicate Les Memoirs 1952 to our Superintendent who has shown such wisdom and understanding and in all aspects considered the students' point of view in the many trying problems

that we know he must face every day. For all this we would like to say simply, Thank You."

Money was raised for the yearbook by the returns from the senior play, dances, advertisers, patrons, and a few contributions. Unlike previous years, the yearbook was given absolutely free to each senior. Aside from special additions, such as names printed on covers, the yearbook was completely paid for by class funds.

The "Les Memoirs 1952" staff included the following: Kathryn Louise Finegan, editor-in-chief; James Smith, assistant editor;

Dwight Spencer, senior writeups; Joseph Farruggio, Joan Volpout, business managers; Daniel Davis, Robert Jones, art editors; Clarence King, photography; Janet Plowman, girls sports; James Gallagher, boys sports; Jay Katz, circulation manager; Marlene Ballow, Dorothy Siler, advertising managers; Rosemarie Cuttone, Evelyn Keates, Theresa Juno, Alverda Williamson, Jean Fiorelli, typists, Mrs. Margaret N. MANY CARS ARE TO TAKE PART IN RACE ON MEMORIAL DAY

The entire Eastern seaboard will be well represented in the 100-mile national championship, for modified stock cars, scheduled for the famed Langhorne speedway on Memorial Day. With more than 70 entered and the starting field limited to 50, the time trials take on added importance. Beginning at 10 a.m., each car will be required to solo the world's fastest mile, and the starting position in the afternoon century grind will be awarded according to time registered.

The real holiday atmosphere will prevail at Langhorne on Memorial Day. An appropriate ceremony will be staged; progress of the Indianapolis 500 will be reported at 15-minute intervals and officials have several last minute plans that should keep the entire family entertained between the time trials and the 100-mile national championship.

Bobby Courtwright, popular in the stocks around the short tracks, will be shooting for his first major win on the larger ovals. Roscoe Hough and Tommy Coates, two of NASCAR's recognized champions, will be battling for the checkered flag. Ken Marriott, veteran campaigner from Baltimore and with him one of the most colorful pilots in the South, Peanut Smith, will be seeking top honors in the title grind.

Johnny McGinley, one of the top finishers in the 1951 grand national; Lou Johnson and Len Brown, two speedsters from the vicinity of Trenton, will be taking another shot at major laurels. The veteran Tonnie Kohler, Gordon Oldford, Al Pompino and Frank Coman, are just a few of the North Jersey entries. Jack Belgard, of Washington, D. C., and Red Tomlinson, of Edgington, Pa., will be numbered among the field of speedsters battling for the 50 starting positions in the Memorial Day Century Classic at Langhorne.

WALLACE HOLDS FRANKLIN NINE TO SINGLE HIT

George Wallace held the Franklin team to one hit last evening as 3M's finally broke into the win column of the Bristol Softball League. The scotch tape makers won over Franklin, 5-1, on Memorial field.

The lone single off Wallace was a single by "Sonny" Fields in the third inning. Franklin scored its run in the second when George Adams made a three-base miff off Bert Barbetta's fly and Toby Oriola tied to center.

3M's scored a run in the second on a walk to Joe Fandetta, a sacrifice by Joe Dolan, a fly to center by Adams, and Dave Fairbanks' hit. Minnesota Mining clinched the game in the fifth with five runs made on three hits, including a double by Joe Dolan with two on, walk, and fielder's choice.

Al Ciambella led the winners at the plate with two out of three. 3M's made nine hits off Paul Paolillo.

BRISTOL HIGH ADDS ANOTHER VICTORY

Bristol High added another win to its list as Jan Gouza blanked Delhaas High, 7-0, on the Bristol Township field yesterday. Final score was 7-0.

Gouza allowed the Delhaas lads but three hits. Jim Burstraan had two of the blows, a triple and single. The triple came with one out in the sixth but Gouza retired the next two batters. The Bristol southpaw struck out eight and did not give up a pass.

Ken Alston was the losing moundman. Bristol made six hits but rugged support and walks helped to ruin his afternoon.

It was Bristol's sixth win against four losses in Lower Bucks County competition.

BENSALEM KEEPS GRIP ON LEAD; COUNCIL ROCK LOSES

CORNWELLS HEIGHTS, May 24—Bensalem Township High remained in the fight for first place in the Lower Bucks County League as Bob Whitfield bested Russ Morris in a hurling duel yesterday on Hansell's field. Final score was: Bensalem, 1; Council Rock, 0.

Whitfield allowed the visitors but one hit, a single by Walton in the fifth inning. Morris gave the Bensalem batters five hits. Whitfield had eight strikeouts.

The lone marker was produced in the third when Jim Welsh drew a pass and Russ Struble doubled. Harry Robinson's single scored Welsh.

Council Rock had scoring opportunities in the fifth and final inning but Whitfield throttled them on both occasions. In the final frame, Welsh made a spectacular catch of Conroy's liner to save the score from being tied.

last country toured, the lake district was of particular interest.

Special features of sculpturing, mosaics, has reliefs (some in gold), as well as the architectural features were pointed out by Miss Sykes. The outstanding colors of a number of mosaic murals were well captured by the camera lens, a number of these being shown on ruins of houses in Pompeii.

Landscapes and seascapes were most attractive, the Amalfi drive in the Salerno area being included. Cathedrals, gardens with series of cascades, courtyards and gardens at entrance to the catacombs, Coliseum and other out-door theatres of olden times (models for modern football stadiums) were included.

Monasteries, the Pantheon, priceless doors with Bible stories portrayed in gold were part of the travel story.

In Venice, the canals and bridges spanning them had a special attraction. In England, the Shakespearian country was visited, also the

Old Curiosity shop; British palaces were shown, as well as the changing of the guard at Buckingham Palace. A unique feature shown in Edinboro was that in the shopping district shops line one side of the street, and gardens, the opposite side.

Mrs. Robert D. Brooks, presiding officer, asked for reading of minutes by Mrs. Frank S. Weik, and prayer in memory of Miss Nora Jones, this being offered by Mrs. George E. Boswell. Report on a recent luncheon was given by Mrs. Frank S. Lehman.

Announcement was made that Mrs. Harry T. Neher, requesting to be relieved of chairmanship of program committee, has been succeeded by Mrs. David M. Sheerer, Jr., with Mrs. Neher replacing Mrs. Sheerer as head of the council of international clubs. Serving as tellers during balloting were Mrs. Alvin K. Schindewolf and Mrs. G. Stanley Whitmore.

The president read an invitation from Wm. A. Lohler, director, to visit the Bucks Co. Society for the Blind, Bristol branch, at 1100 Beaver street, June 2nd-6th, between one and nine p.m. During that week, blind individuals may be seen at work on various tasks.

Announcement was made of a conservation meeting, on the sixth of June, at Washington Crossing Methodist Church, at 11 a.m. Mrs. Leon J. Hutton will speak on the famed painting now housed there. Box lunch will be partaken of at Bowman's Hill, with meeting at two p.m. in the pavilion there.

Refreshments were served by Mrs. William Boyd and Mrs. Alpheus W. Smyrl.

grounds at Pennell and Langhorne.

Additional playgrounds are projected for Parkland and Hulmeville under the sponsorship of community organizations and the local school boards.

Heckman said the proposed playground at Hulmeville would be the undertaking of the Hulmeville school directors, the Parent-Teacher Association and the Lincoln Highway Kiwanis Club. The Parkland school directors have been asked to initiate a project in this area.

Suggestions have been made by Heckman to the school officials of Lower Southampton township to open playgrounds at Siles and at Feasterville.

Harry Franks, director of physical health and education at Neshaminy high school, has been appointed instructor for the playgrounds at Parkland, Hulmeville, Pennell and Langhorne. He will be assisted at the individual projects by students instructors.

Under the program, community organizations and school officials hope to provide recreational facilities for 500 children for eight weeks beginning June 23.

Enlighten Emilie WSCS As To Life in Mexico

EMILIE, May 24—A former Yardley Methodist pastor's wife, Mrs. Robert Walker, now of Grace Methodist Church, Philadelphia, presented an interesting talk concerning "Mexico" to members of the Women's Society of Christian Service, Emilie Methodist Church, Wednesday evening, when that group met at the home of Mrs. George Baker, Fallsington.

Mrs. Jay Hook presided. Rev. Samuel Gaskell offered a prayer. Mrs. Hook welcomed the pastor and his wife as they commence their 14th year of service.

Mrs. Gaskell introduced the speaker, Mrs. Walker, who had spent four summers in Mexico, and who presented a very enlightening talk concerning the people, transportation, markets, customs, etc., there. Mrs. Walker mentioned the Methodist work being done there. She stated: "In Monterey, the Methodist Church of the United States has established a mission. There are 12 Methodist churches in Mexico City. In one church, people give public thanks for special blessings bestowed upon them through a week."

Mrs. Walker said: "No matter what color of skin or what creed, people are people — a smile is a smile no matter where."

Words of appreciation were extended Mrs. Walker by Mrs. Gaskell. Mrs. Samuel Miller read the secretary's report and Mrs. John Kilian reported the treasury balance.

The Rev. Samuel Gaskell, Mrs. Mabel Stemann, Mrs. Horace Booz were appointed members of a committee to secure the list of owners of plots in Emilie Cemetery and by letter ask them if they would like to make a donation to the cemetery fund for upkeep. Any donation may be sent to Mrs. John Kilian, Mount-Ed Route, Bristol.

An additional welcoming committee was appointed: Mrs. Robert Baker, Mrs. George Baker, Mrs. Arthur Williams.

The annual budget was discussed for the conference W. S. C. S. It was decided to pay one-half of the budget now and one-half in six months.

LET'S PICK A SCRAPPER!

With only six weeks or so left till the Republican National convention, the picture of the general nature of the coming campaign is beginning to reveal itself.

It is not going to be what it appeared to be a month, or two months, or six months ago.

Not so long ago, it was generally believed that President Truman would be the candidate, and that he would be forced to conduct a strictly defensive campaign, trying to excuse and justify corruption as the main issue of the election.

Now the President has eliminated himself, and thereby put himself in powerful position to carry the fight, but do it for someone else — a role that is just as effective today as it was when knighthood was in flower, and the gentlemen in armor broke their lances for damsels in distress.

Mr. Truman has made it thoroughly clear that he has no intention of being put on the defensive. He has been making a series of most aggressive attacks on the Republicans — maybe the same old stuff that Charley Michaelson invented back in 1930 and 1932, but used successfully election after election since that period.

He has been busy blaming Congress for everything that has gone wrong, taking personal and party credit for what has gone right, and telling the public that the Republican Party, is the greedy representative of vested interests.

He has not been merely rehearsing his whistle-stop campaign, but conducting it, and doing so without any effective reply or other form of hindrance, since the Republicans have been engrossed in the job of trying to decide on a candidate.

Six months ago, when the scandals were coming thick and fast, when the Korean situation was backfiring, when everything else was going wrong for the Democrats, it appeared that the New Deal was on the skids.

Actually, however, the Marshall-Acheson-Truman axis has had strong assets all the time.

For one thing, the war scare is a commodity which the U. S. State Department can turn on or off like a faucet. Mr. Truman can decide whether it would be best for his party to run in a setting of world peace and friendship, or in an atmosphere of great crisis and emergency.

No process know to man, at the present juncture, can go beyond the propaganda of our diplomats and military leaders. If they say the world is full of amity, who can refute them? Or if they say that Stalin is stockpiling atomic bombs to blitz us, who can make any convincing denial?

It has been abundantly demonstrated, time and again, that it is not beyond the power of the State Department to lie a little, or a lot, for what they consider a good cause; and you can bet that they will think the re-election of those friendly to the Department is a good cause!

Just as a tip, if Senator Taft is nominated, look for a war scare, and if it is Eisenhower, look for a peace offensive!

What is true of the emotional content of the campaign is quite as true of the economic background. There has been a lot of rash talk recently, much of it taken seriously by Republicans, to the effect that we are headed for a slump, which might arrive before November. Nothing could be more absurd.

The fact is that the Truman Administration already has on tap the fantastically immense sum of approximately \$25 billions, and more available if necessary, to dump into country's markets wherever and however best calculated to give us a "boom" lasting through the fall election.

This is money, most of it, appropriated in the most general fashion for defense work, and it can be spent just exactly whatever way the Democratic high command figures will do their party the most good.

What this means is that Mr. Truman has full choice whether to run in a stage setting of "good times" or "hard times," and whether one of world peace, successful culmination (he will say) of the New Deal foreign policy; or of desperate national crisis, in which we must not ever dare consider "changing horses."

Moreover, having wiped out most of his own liabilities by the simple act of renouncing any intention of serving another term, President Truman has prepared, and already embarked on, a demagogic campaign of vilification, personalities, smoke-screens and promises.

General Eisenhower has been given a very mild foretaste of the sort of abuse waiting for him if he wins the Republican nomination. How can he reply in kind to his former friends and associates in the Truman Administration, and what convincing answer can he possibly give when they turn upon him?

If General Eisenhower has been too uncertain of his can-

RIVER CHANNEL TO BE DUG TO 25 FEET

Bids Are To Be Received On July 1st For The Work

WILL TAKE 4 MONTHS

Maintenance of the Delaware river channel at a 25-foot depth, between Philadelphia and United States Steel's Fairless Works is indicated, as bids are to be received on July 1, by the Army Corps of Engineers.

Engineers estimate it will take about four months to complete.

Specified as "channel maintenance," the 25-foot depth was authorized by Congress several years ago. A Congressional move to allow dredging to a depth of 40 feet to accommodate large ore boats currently is pending.

Officials believe that the 25-foot channel will be deep enough for some large ships if they are not too heavily loaded. U. S. Steel is completing an ore boat slip slightly south of Newbold Island.

Army engineers are planning for a channel 300 feet wide, with extra width at the river bends. It is estimated that 1,174,000 cubic yards of silt and other material will have to be removed.

The project includes slightly more than 20 miles, extending from the upper end of Newbold Island to the mouth of Frankford Creek in Philadelphia.

All in Readiness For Annual Flying Circus

Field preparations for Bristol Aeromodelers 3rd Annual model flying circus have been nearly completed. Club members have cleared parking areas and a ton of calcium chloride was spread upon the group's field to eliminate dust from raising. A snow fencing enclosure will complete preparations. Three circles, 140 feet in diameter await contestants, one circle will be for stunt competition which at all previous meets has been the most popular; another for combat competition and another for team racing which will draw relatively fewer entries.

On Thursday at the field, members voted not to compete in this contest because most of the experienced members believe it is their duty to act as judges and officials, and play hosts to contestants from other clubs.

Club meetings will be held on the field tomorrow afternoon and on Wednesday and Thursday evenings. All members will turn out at eight a. m. on Friday morning of the big event.

BRISTOL HIGH GIRLS STAGE FASHION SHOW

Prove There Is Plenty of Talent Here; Theme "Through Looking Glass"

MRS. LANG DIRECTS

There's plenty of real talent in Bristol! Under the capable direction of Mrs. A. Lang, sewing instructor at Bristol high school, the girls staged a delightful fashion show, from two to three p. m. yesterday.

The girls selected as their theme "Through the Looking Glass". The stage itself was nicely "set". To the extreme left of the audience was a grand piano on which selections from Gershwin were played softly as a background for the models. "Connie" Green proved herself an accomplished musician.

Next to the piano was a cute desk and chair set, and in the center of the stage was "Alice's" dressing table. To the extreme right of the stage was a bed in which "Alice" slept and dreamed of stunning creation after stunning creation. "Alice" was capably portrayed by "Judy" Martin. During the entire showing, an intelligent and pleasant commentary was made by Jo Ann Spicer, who was very attractive in a brown cotton corde jumper which she had made herself. With it Jo Ann wore a red and white sheer blouse.

The seventh grade girls displayed attractive aprons made with a wide band at the waist and soft gathers across the front. Each girl chose a different color, and there were red and white and blue and white checked patterns as well as a blue and yellow flowered design. "Dress-up" aprons in soft blue or yellow organdy were also proudly exhibited. Two of the girls made blouses, one chose a blue, the other a green. Each had a contrasting flower placed perky on it. The eighth grade girls made petticoats in starched cotton. These are especially suitable for wear under sheer skirts, and there were many colors represented as there were girls presenting them — all were the perfect answer to the sheer dress problems.

Dresses and suits were the pride of the upper class girls. One off-the-shoulder two-piece dress in blue and black plaid was especially charming with a full skirt with a ruffle to complement the smaller ruffle at the neck.

There was one "Sunday-go-to-meeting" skirt of pink pique worn with a white batiste blouse and

HUNTER EMPLOYEES GO OUT ON STRIKE AT EMILIE PLANT

Over 100 Employees Quit Work Over Wage Demand

PICKET LINES SET UP

Building Trades Group Said To Have Joined Walk-Out

EMILIE, May 24. — At two o'clock yesterday afternoon, the employees of the Hunter Manufacturing Company, went on strike. "The walkout was the result of the final last minute meeting in which International Representatives for the UAW-CIO, George Kane and Joseph Ferraro, attempted to gain a settlement with Charles Hunter, president of the company, to avert a strike," the union spokesman said. "Mr. Hunter took the same position as the company did previously, therefore the Union called a strike," said the Union spokesman.

Picket lines were immediately set up and Joseph Ferraro, International representative stated that the strike was a complete success as every Hunter maintenance and production worker filed out. "AFL building trades workers employed in erecting buildings on the Hunter premises also participated in the walkout," and Ferraro said, "that they would respect the Union's picket lines." Ferraro said truckers engaged in shipment of the Aluminum windows, also honored the picket lines thus making the strike 100% effective. The Union as a last resort to postponing the walkout offered the company its proposal of accepting a modified Union Shop, and a Wage Reopener anytime after September 1, 1952, to which the company said no.

Mr. Kane, Sub Regional Director for this area, said that if the Union was forced to go on strike, then the price of setting it would be raised. The Union is now demanding a flat 15 cent across the board increase as a basis for settlement. The Union is calling a special meeting on Monday at the Fifth Ward Sporting Club House in Bristol, to give the membership its final report. The Union representatives expressed hope in getting a settlement soon. The Hunter employees had voted for the UAW-CIO on Feb. 8, and have been negotiating since that date trying to get their first contract.

There are said to be approximately 125 employees affected.

Among the guests were the president and secretary of the Montgomery County Bar Association and the secretary and treasurer of the Chester County Bar Association.

SIZE OF THE TRAP

What the wholesale bungling on Kojie Island has done to this country has made a deep impression on Congress. Acrid discussion is taking place in the House, all unfavorable to the military.

Congressmen point out that if the concessions which General Colson agreed to in order to obtain General Dodd's release are adhered to, it will be an admission that the communist charges of brutality in the prison camp are founded on fact. If the commitments are repudiated, as General Clark has suggested, the communists are given an opportunity for pointing out to the world, particularly Asia, that United States promises are not worth the paper on which they are written.

In view of the painful dilemma in which the U. S. now finds itself, it is not surprising that a demand is growing in Congress for a sweeping investigation of events in Korea. While it will not be easy to recover the prestige the country has lost, it may be possible to put a permanent end to the kind of stupid blunders of which the military establishment has been guilty.

General Clark's explanation that the whole affair was "carefully prepared to manufacture" communist propaganda will hardly satisfy the American people. All it does is convince them completely that their representatives did not have sense enough to avoid falling into an enemy trap. If that is any comfort to the country's military leaders they are welcome to it.

NICKEL HEADED FOR RAP

Another jolt may soon be dealt the purchasing power of the lowly nickel, unless the cost pattern in the newspaper publishing industry soon is reversed. Announcement of an increase of \$10 a ton in the price of Canadian newsprint, on top of a similar boost less than a year ago, brings daily newspapers face to face with the necessity of increasing the price per copy to avoid deficits.

The basic price of newsprint f. o. b. New York City (the price is higher elsewhere in the country) will now be \$126 a ton, compared to a low of \$10 in the 1930s. Other costs that enter into production of a newspaper have soared, too—taxes, wages, postage, equipment. The nickel newspaper seems to be making its last stand.

In California, and in several cities elsewhere, many newspapers are now cost 7 to 10 cents. But most publishers have been holding the line at five cents, in the hope that the inflationary spiral would be slowed.

More than 75 per cent of newsprint used by U. S. newspapers is manufactured in Canada. Forty years ago 75 per cent was produced in the United States. In explanation of the latest increase in price, Canadian manufacturers say their costs have increased, and point to the fact that for the first time in history the U. S. dollar is at a discount in Canada.

Bristol High Girls

Stage Fashion Show

Continued from Page One

topped by a little crownless brim of pink pique which was scalloped around the edge.

One girl proudly wore an orchid pique dress with tight bodice and full skirt. At the neckline was a dainty bunch of violets and with it she wore a violet velvet belt.

A mustard colored skirt made of corduroy, topped by a weskit of the same fabric and worn with a white blouse and red tie also won much acclaim from the audience. It would take an "extra" edition of the Courier to describe in detail all of the clothing shown, and it is difficult to describe them completely because there were so many and all so worthy.

A truly professional toe exhibition was given by "Betty" Brand who looked charming in a red net costume over which she wore a satin blouse of white with multi-colored balloon-like ball dots.

If you are one of the many who are fascinated by a baton twirler, you would have enjoyed Lily Ruth Brenton who looked very chic in a white costume.

All of the garments were made by the girls and Mrs. Lang had some very fine assistants in Josephine Romano, Lorraine Mullins, Connie Gold, Shirley Pettit, "Peggy" Packard and Jo Ann Spicer.

More thrilling than the creations themselves was the spirit of teamwork and cooperation these girls felt, and their resulting pride in the fact that there is plenty of talent in Bristol.

Today's Quiet Moment

By the Rev. Curtis Loux, Pastor Oakhurst Chapel Pennell

Isaiah 26:3 — "Thou wilt keep him in perfect peace, whose mind is stayed on Thee; because He trusteth in Thee."

Peace: perfect peace: What words? How the world seeks for peace and yet has not found it. We have wars and win them, but cannot win the peace. Men perform many acts of ritual to bring peace to their minds, only to find that they have not found it. Hence the question: is there any peace to be found? Must man seek forever for peace and not find it?

Yes, peace can be found; what's more, perfect peace can be found, but it must be found in God. "Thou wilt keep him in perfect peace: whose mind is stayed on Thee." The only real peace must be found in the Prince of Peace, the Son of God; for did not the angels sing "Peace on earth good will to men" when the Child Jesus was born? Yes, in Him there is peace; peace that was made through the sacrifice of Himself making peace between God and man. The reason for unrest and strife is because of a variance between God and man. This variance exists because of sin against God. This variance was removed when the Son of God died for sin, making peace through the Blood of the Cross.

How to find peace; put your trust into Him the Prince of Peace. When you as an individual put your trust into Him; you have peace. When nations acknowledge Him they have peace; until we recognize Him we will have no peace. The work of righteousness shall be peace; and the effect of righteousness, quietness and assurance forever.

ceived a gift as the mother with the youngest child. The refreshment committee, headed by Mrs. Robert Hyatt, served ice cream, cake and coffee. Each guest received a carnation.

Members of Mrs. William Bourne's card club met Tuesday evening at her home in Bath Addition. Canasta was played. Mrs. George Graffner, Fergusonville was the prize winner.

"We, at Bristol, are more grateful than we could possibly put into words, to have so well-educated, experienced and capable a man as the skipper of our ship. "We are proud to dedicate Les Memoirs 1952 to our Superintendent who has shown such wisdom and understanding and in all aspects considered the students' point of view in the many trying problems

that we know he must face every day. For all this we would like to say simply, Thank You."

Money was raised for the yearbook by the returns from the senior play, dances, advertisers, patrons, and a few contributions. MANY CARS ARE TO TAKE PART IN RACE ON MEMORIAL DAY

The entire Eastern seaboard will be well represented in the 100-mile national championship, for modified stock cars, scheduled for the famed Langhorne speedway on Memorial Day. With more than 70 entered and the starting field limited to 50, the time trials take on added importance. Beginning at 10 a.m., each car will be required to solo the world's fastest mile, and the starting position in the afternoon century grind will be awarded according to time registered.

The real holiday atmosphere spirit will prevail at Langhorne on Memorial Day. An appropriate ceremony will be staged; progress of the Indianapolis 500 will be reported at 15-minute intervals and officials have several last minute plans that should keep the entire family entertained between the time trials and the 100-mile national championship.

Bobby Courtwright, popular in the stocks around the short tracks, will be shooting for his first major win on the larger ovals. Roscoe Hough and Tommy Coates, two of NASCAR's recognized champions, will be battling for the checkered flag. Ken Marriot, veteran campaigner from Baltimore and with him one of the most colorful pilots in the South, Peanut Smith, will be seeking top honors in the title grind.

Johnny McGinley, one of the top finishers in the 1951 grand national; Lou Johnson and Len Brown, two speedsters from the vicinity of Trenton, will be taking another shot at major laurels. The veteran Tommie Kohler, Gordon Oldford, Al Pompino and Frank Coman, are just a few of the North Jersey entries. Jack Belgard, of Washington, D. C., and Red Tomlinson, of Edgington, Pa., will be numbered among the field of speedsters battling for the 50 starting positions in the Memorial Day Century Classic at Langhorne.

WALLACE HOLDS FRANKLIN NINE TO SINGLE HIT

George Wallace held the Franklin team to one hit last evening as 3M's finally broke into the win column of the Bristol Softball League. The scotch tape makers won over Franklin, 5-1, on Memorial field.

The lone bingle off Wallace was a single by "Sonny" Fields in the third inning. Franklin scored its run in the second when George Adams made a three-base miff off Bert Barretta's fly and Toby Oriola tied to center.

3M's scored a run in the second on a walk to Joe Fandetta, a sacrifice by Joe Dolan, a fly to center by Adams, and Dave Fairbanks' hit. Minnesota Mining clinched the game in the fifth with five runs made on three hits, including a double by Joe Dolan with two on, walk, and fielder's choice.

Al Ciambella led the winners at the plate with two out of three. 3M's made nine hits off Paul Paolillo.

BRISTOL HIGH ADDS ANOTHER VICTORY

Bristol High added another win to its list as Jan Gouza blanked Delhaas High, 7-0, on the Bristol Township field yesterday. Final score was 7-0.

Gouza allowed the Delhaas lads but three hits. Jim Burstraan had two of the blows, a triple and single. The triple came with one out in the sixth but Gouza retired the next two batters. The Bristol southpaw struck out eight and did not give up a pass.

Ken Alston was the losing moundman. Bristol made six hits but ragged support and walks helped to ruin his afternoon.

It was Bristol's sixth win against four losses in Lower Bucks County competition.

BENSALEM KEEPS GRIP ON LEAD; COUNCIL ROCK LOSES

CORNWELLS HEIGHTS, May 24—Bensalem Township High remained in the fight for first place in the Lower Bucks County League as Bob Whitfield bested Russ Morris in a hurling duel yesterday on Hansell's field. Final score was: Bensalem, 1; Council Rock, 0.

Whitfield allowed the visitors but one hit, a single by Walton in the fifth inning. Morris gave the Bensalem batters five hits. Whitfield had eight strikeouts.

The lone marker was produced in the third when Jim Welsh drew a pass and Russ Struble doubled. Harry Robinson's single scored Welsh.

Council Rock had scoring opportunities in the fifth and final inning but Whitfield throttled them on both occasions. In the final frame, Welsh made a spectacular catch of Conroy's liner to save the score from being tied.

last country toured, the lake district was of particular interest.

Special features of sculpturing, mosaics, bas reliefs (some in gold), as well as the architectural features were pointed out by Miss Sykes. The outstanding colors of a number of mosaic murals were well captured by the camera lens, a number of these being shown on ruins of houses in Pompeii.

Landscapes and seascapes were most attractive, the Amalfi drive in the Salerno area being included. Cathedrals, gardens with series of cascades, courtyards and gardens at entrance to the catacombs, Coliseum and other out-door theatres of olden times (models for modern football stadiums) were included. Monasteries, the Pantheon, priceless doors with Bible stories portrayed in gold were part of the travel story.

In Venice, the canals and bridges spanning them had a special attraction. In England, the Shakespeare country was visited, also the

Old Curiosity shop; British palaces were shown, as well as the changing of the guard at Buckingham Palace. A unique feature shown in Edinboro was that in the shopping district shops line one side of the street, and gardens, the opposite side.

Mrs. Robert D. Brooks, presiding officer, asked for reading of minutes by Mrs. Frank S. Weik; and prayer in memory of Miss Nora Jones, this being offered by Mrs. George E. Boswell. Report on a recent luncheon was given by Mrs. Frank S. Lehman.

Announcement was made that Mrs. Harry T. Neher, requesting to be relieved of chairmanship of program committee, has been succeeded by Mrs. David M.
